General Pediatricians needed for The Children's Hospital Pediatric Locum Tenens Service. Do you want variety, are willing to "go with the flow", and would enjoy just being a pediatrician and not worry about all business aspects of being in practice? We provide coverage for private practice pediatricians throughout Colorado and Wyoming—anywhere from one day to several weeks at time. The work is flexible and unpredictable, but you are only obligated to take the assignments that you choose. We pay a higher hourly rate than national locum tenens firms, and

we provide the costly malpractice liability coverage. If you are interested, please contact Joanie Muzzulin, Program Manager, 720-777-3533 or [muzzulin.joan@tchden.org](mailto:muzzulin.joan@tchden.org).

Please see website: [www.wyomingkidtalk.com](http://www.wyomingkidtalk.com). We would like you to look at your new practice, not as a "job", but as an opportunity for an individual to develop their own practice in a rural mountain town, without the risk they otherwise would be required to take, should they simply hang out their shingle or work for a corporate organization. If you have always dreamed of living in a mountain village, in a ranching community where you are recognized by someone every time you go to the grocery store and people call you "doc"; where you have the ability to minister to lives both physically, spiritually and emotionally, then this is indeed the "opportunity" that will reward in proportion to your effort – and you won't have to be on call every night.

Loveland Pediatrics is part of Banner Health Medical Group, a multi-specialty medical group in scenic Loveland Colorado. Our city is a beautiful, family-oriented community located about 50 minutes north of downtown Denver. Most of us describe our environment here in Northern Colorado as something between rural and urban, and consider that we have 'the best of both worlds.'

Our pediatrics practice currently has six full-time physicians, and four part time physicians. We have a very tolerable call schedule, averaging about one weekend call (only two nights during an assigned weekend) every six weeks or so, and one night call every one to two weeks. Our full-time partners take one full day off per week. We do not have physician assistants in our office, as we prefer the continuity of care afforded by seeing our patients face to face at each clinic visit.

We admit our hospital patients to McKee Medical Center here in Loveland, and we are fortunate to have an ER staffed by an excellent physician group. Our obstetricians are also among the best, and are great to work with. Generally, any labor patient who is under 35 weeks gestation,

and stable for transfer, will be transferred to a facility with a NICU. We do place umbilical lines, and manage babies on nasal CPAP. At any given time, we may have a baby or two 'feeding and growing' until they are ready for discharge home. We do not manage babies on ventilators, other than during stabilization for transport. We have the capability to perform neonatal echocardiograms, which are read (often very promptly) by The Children's Hospital cardiologists. We do not generally admit pediatric patients to our ICU.

Our office is in a beautiful and spacious building which is only about four years old, and has wonderful views of our Northern Colorado Mountains. Within our building, we have Lab, X-ray, and Urgent Care facilities that greatly enhance patient service.

The partners meet over breakfast once a month for Pediatric Journal Club. We enjoy lively and friendly discussion over what we find to be key articles and topics, as we strive to maintain our commitment to practicing evidenced based medicine. We take pride in our friendships with each other as partners, and commonly extend ourselves to each other for back-up assistance when needed.

Mountain View Medical Group has positions for Pediatricians for either inpatient or outpatient care available who are able to begin employment with us as soon as possible. Applicants need to be Board Certified, or eligible to take their boards as soon as possible. We have a need for a Pediatrician who enjoys working in an inpatient environment with a collegial team of dedicated and skilled inpatient Pediatricians who serve three hospitals in Colorado Springs. The work includes routine pediatric admissions, level two NICU and well newborn care. Circumcisions are done by the Pediatricians. The typical census is approximately 12 to 15 patients per day. Shared call is approximately one in five. The inpatient team is supported by 24hour in house coverage from Pediatric Intensivists, Neonatologist, Neonatal Nurse Practitioners who can also attend C sections and almost all pediatric sub specialists. We would also be interested in talking to Pediatricians who would like to work in an outpatient environment in full time capacity. You would be working with a collegial, team oriented, busy outpatient practice. With Mountain View Medical Group, you would be joining one of the best known and well respected medical groups in Southern Colorado. We offer a competitive salary and benefit package to include medical, dental, vision, disability, long term care, 401K with profit share contribution. Generous vacation and CME allowance is also included in the package. Generous relocation assistance is offered through a national carrier.

PPSW is a group pediatric practice with seven pediatricians and one nurse practitioner located in Durango, Colorado in the Southwest corner of the state. PPSW cares for babies, children, adolescents and young adults from birth to age twenty-five. While the majority of our patients are from La Plata County, we have a significant number of children who come from Montezuma, San Juan, Archuleta, and Dolores counties where there are no pediatricians, as well as nearby bordering counties in New Mexico.

Pediatric Partners was established in June 2005 by founding pediatricians Cecile Fraley, Brenda Huffman, Kelly Miller, and Art Zemach. Our mission was to run an efficient pediatric practice that would see all children in our community regardless of payer source. Pediatric Partners has accomplished its' founding objectives and currently serves over 18,000 patients with a breakdown of 24% Medicaid, 10% CHP+, 11% uninsured, and 55% private insurance. We have an integrated EMR system with e-billing.

One of our pediatricians serves daily in the role of hospitalist, providing care for our hospitalized PPSW patients, as well as unassigned patients at Mercy Regional Medical Center's Level 2 Neonatal ICU, nursery and pediatric ward. Our pediatricians also provide pediatric consultative services for outlying county family physicians.

PPSW endeavors to serve the children of our rural community. PPSW is open six days a week and provides unlimited same day appointments. We provide an after hours nurse telephone triage system at no charge to our patients.

Durango is a wonderful place to live and work. The physicians at Pediatric Partners place an emphasis on time with our families, community service, and time to play and recreate in our mountains and rivers.
