

# Process for Emailing Consents

You may now email the HIPAA consent form for access to Children's Colorado Connect. You must **FIRST** email [SchoolNurseAccess@childrenscolorado.org](mailto:SchoolNurseAccess@childrenscolorado.org) and write **"consent"** in the subject line. An encrypted email will be sent back to you. Attach the consent, and in the body of email, write: **Name, School & Work Phone**. No cover page is needed unless you fax the consent (if secure district fax is available to you).
