Children’s Hospital Colorado offers post-doctoral psychology fellowships in the following areas. All fellowships combine clinical and research opportunities.

**The Center for Cancer & Blood Disorders (CCBD)**
- focused on clinical and research training and to develop advanced competencies in pediatric psychology within an oncology-hematology setting. The Fellow will be engaged in all aspects of clinical assessment, treatment and program development across CCBD diagnoses. In addition, the Fellow will assist in the development and implementation of psychosocial research within the CCBD with the goal of preparing manuscripts for publication.

**Developmental Pediatric Psychology**
- focused on outpatient interdisciplinary evaluation and treatment of autism spectrum disorders, other developmental disabilities, and genetic disorders. The postdoctoral fellow works with a team consisting of Developmental Behavioral Pediatrics, Social Work, Nursing, Occupational Therapy, Physical Therapy, Speech/Language Therapy and Psychology. The postdoctoral fellow also participates in a selected set of Leadership Education in Neurodevelopmental and Related Disabilities (LEND) training didactic opportunities and research relevant to developmental disabilities.

**Trauma Informed Care Fellowship**
- focused on development and implementation of evidence-based, trauma-specific therapeutic interventions within higher levels of child and adolescent psychiatric care. The program offers unique training within child and adolescent psychiatric inpatient and partial-hospitalization programs with trauma-specific interventions. The fellow has the opportunity to be involved in a quality improvement or program development project.

**Medical Day Treatment**
- focused on assessment and treatment of children and adolescents with chronic medical illness and comorbid psychiatric symptoms. The program offers training in a unique multidisciplinary setting, including on-site education and daily medical support. There are opportunities to integrate research and program development activities with clinical service.

**Outpatient Postdoctoral Fellow (OP)**
- focused on assessment and treatment of children and adolescents presenting with a broad range of emotional and behavioral problems. The fellow will be engaged in all aspects of clinical outpatient assessment and treatment. The fellow is also heavily involved in program development and research projects pertaining to a transdiagnostic approach to pediatric behavioral health.

**Pediatric Primary Care (Project CLIMB)**
- focused on development, implementation, and evaluation of integrated behavioral health services in pediatric primary care settings. The fellow’s clinical responsibilities include conducting screenings, consultations, brief assessments, brief interventions, and case management for youth and their families. Opportunities for scholarship and teaching are built into the fellowship. Opportunities for scholarship and teaching are built into the fellowship.

**Transgender Clinic Fellowship**
- focused on assessment, psychoeducation, consultation and treatment of gender non-conforming and transgender children and adolescents. The fellow will be engaged in all aspects of diagnostic assessment, psychoeducational and support group, individual therapy, and consultation in a multidisciplinary treatment team. The fellow is also involved in program development and research projects pertaining to assessment, treatment, and outcomes with gender non-conforming and transgender youth.

All fellowships are designed as full-time 12-consecutive -month programs beginning in September 2018. Fellows will receive a salary of $47,477, subject to the withholding of taxes. As a full-time Children’s Hospital Colorado employee, fellows are eligible for benefits equivalent to a first year employee which include; medical, dental, vision, short term disability, and life insurance options. Fellows are eligible for a total of 21 days of paid time off for holiday (7 Children’s Hospital Colorado observed holidays), vacation, and sick days, and 5 professional leave days. Malpractice insurance is provided by Children’s Hospital Colorado.
The fellowship program is broadly intended to be comprised of time devoted to clinical training as well as time for scholarly, research or program development activities depending on the specific fellowship. The program is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC-www.appic.org) and the Council of Clinical Health Psychology Training Programs (CCHPTP - www.cchptp.org)

**Requirements for Admission**

Applicants must have completed their training in an APA or CPA accredited PhD or PsyD program in Clinical, Counseling, or School Psychology, and an APA accredited internship. Candidates are expected to have sufficient training and experience in Child Clinical Psychology to be able to maximally benefit from the experiences offered. Applications will be accepted from doctoral candidates who expect to have completed all doctoral degree requirements by the fellowship start date, including completion of internship and successful dissertation defense. Positions are contingent upon official verification of completion of all doctoral degree requirements (e.g., diploma, transcript) through the graduate school conferring the degree prior to starting the fellowship. The training program is committed to the recruitment of culturally and ethnically diverse individuals. Bilingual Spanish speaking applicants, and all other qualified applicants, are encouraged to apply.

**Application Procedures**

Children's Hospital Colorado Fellowship program abides by all APPIC policies and guidelines regarding application and notification procedures, including the APPIC policy that no person in this training facility will solicit, accept, or use any ranking-related information from any Postdoctoral Fellow applicant.

*All applicants must use the APPIC AAPA on-line ([www.appic.org](http://www.appic.org)).*

A completed application consists of the following materials:

1. Cover letter stating specifying interest in the specific post-doctoral position of choice, previous clinical, research and professional experience relevant to the post-doctoral program and expectations of personal and/or professional goals that may result from engaging in the specific post-doctoral program identified. If you are applying for more than one Postdoctoral Fellowship with Children’s Hospital Colorado, only complete one application. You may upload separate cover letters for each of the tracks which you are applying. *All Developmental Pediatric applications must include a de-identified work sample.*
2. A current Curriculum Vitae
3. Official transcripts of all graduate coursework
4. Three letters of recommendation. *Please submit only three letters*

**Interview dates for selected applicants are January 22nd, 26th, 29th and February 2nd of 2018.** This training program is following the APPIC guidelines for selection of fellowship candidates. Offers will be made on Monday February 26, 2018.

Should you be interested in applying for more than one position, please specify the one you are most interested in and discuss why you have chosen that particular program. **Application deadline is December 14, 2017.** Any questions or concerns can be directed to our Operations Coordinator, Dianna Torgerson at [Dianna.Torgerson@childrenscolorado.org](mailto:Dianna.Torgerson@childrenscolorado.org).
