The Hospital Inpatient & Ambulatory Surgery copayment is required for charges related to non-physician (facility) services incurred while receiving care in a hospital for a continuous stay of 24 hours or longer or Ambulatory Surgery for operative procedures received by a client who is admitted to and discharged from the hospital setting on the same day.

The Inpatient and Emergency Room Physician copayment is required for charges related to services provided directly by the physician in the hospital setting, including emergency room care.

The Outpatient Clinic copayment is required for charges related to non-physician (facility) and physician services received in the outpatient clinic setting. This includes charges for primary and preventive medical care. Does not include charges for outpatient services provided in a hospital (i.e., emergency room care, outpatient surgery, radiology).

The Hospital Emergency Room copayment is required for charges related to non-physician (facility) services incurred while receiving care in the hospital setting for a continuous stay of less than 24 hours, including in the Emergency Room.

The Specialty Outpatient Clinic copayment is required for charges related to non-physician (facility) and physician services received in the specialty outpatient clinic setting, but does not include charges for outpatient services provided in the hospital setting (i.e., emergency room physician, ambulatory surgery). Specialty outpatient charges include distinctive medical care (i.e., oncology, orthopedics, hematology, pulmonary) that is not normally available as primary and preventative medical care.

The Prescription copayment is required for prescription drugs received at a qualified CICP health care provider's pharmacy.

The Laboratory Services copayment is required for charges related to laboratory tests received by the client that are not associated with an inpatient facility or hospital outpatient charge during the same period; radiology and imaging services in clinic setting.

Outpatient Services- ***Increased*** clients receiving a Magnetic Resonance Imaging (MRI), Computed Tomography (CT), Positron Emission Tomography (PET), Sleep Studies, Catheterization laboratory (cath Lab), or other Nuclear Medicine services in an Outpatient Setting are responsible for the copayment which is reflected in the chart.

Ancillary Services are services that are performed at CHCO outside of a specific Primary Care of Specialty Clinic, Inpatient, Outpatient, Ambulatory Surgery, ED or Urgent Care visits (e.g., X-Rays (flat films), ultrasounds, stress tests, pulmonary function test, ECG, etc)
